ZENO KLINKER

Management Club To Hear Klinker

One of Hollywood's top comedy writers whose words have been heard by more than two dozen major motion picture studios, Zeno Klinker, among others, will be guest speaker this evening at Granite City Steel Management Club's dinner meeting in the Bel Air East, in downtown St. Louis.

Zeno Klinker of Hollywood, comedy writer for Edgar Bergen the last 24 years, will be principal speaker at tonight's dinner. "Spotlight Speaker" at the 7 p.m. meeting will be Lyle F. Guiley, Granite City Steel, program chairman. Other steel mill officials expected to attend are John A. Leschen, vice-president, sales; W. F. Hoelscher, vice-president, secretary-treasurer, and John R. Hundley, vice-president, industrial relations. Although widely-known for his writing ability, the west coast guest is equally acclaimed for his exploits as an aerial motion picture cameraman during the early barnstorming and stunting days of aviation, Johannsen said. It is Klinker's world-famous collection of rare and amusing historical aviation movies—recognized as the world's most complete documentary—that he will narrate.

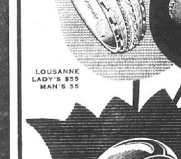

Johannsen said that results of the Management Club's recent election of officers will be announced at tonight's meeting. Ballots were mailed to members in early May and tabulations are now complete, he added. A cocktail hour is planned from 6 to 7 p.m. followed by the dinner, the chairman said.

Bridge Painting Cost Skyrockets, Madison Informed

The cost of painting the old Chain of Rocks Bridge is four times that of 10 years ago, when the bridge was last painted with low bids ranging up to \$251,550, according to a report on bids at a Madison city council meeting Tuesday night.

Mayor Stephen Maeras told the council that he and consulting engineers were "doubtful" as bids from two painting contractors were opened Tuesday afternoon. No contracts were let, and the bids were referred to the consulting engineering firm of Hardy and Hanover, New York, for study and recommendation.

The engineer's estimate was \$92,155 to paint the entire bridge with it left open to traffic. Mayor Maeras said the cost in 1957 was about \$60,000. Low bids on four alternate proposals were submitted by the Hartman Walsh Painting Co. of St. Louis, with slight variations based on the grade of paint.

The Hartman Walsh bid to paint eight feet of the steel structure above the roadway, with the bridge open to traffic, was \$10,915, with the estimate at \$50,125, while bids with the roadway closed were \$240,130, \$240,850 and \$170,945. Gus T. Handge & Son Painting Co. of St. Louis, which submitted the bridge the last time, submitted bids of \$273,850, \$274,045 and \$170,945.

In other business, the council was informed that a Missouri appeal to its state supreme court of a case against Madison seeking return of bridge toll funds will be heard next January. Madison had won its case in the St. Louis circuit court on lack of jurisdiction.

Received a letter from the Madison county civil defense group commending the Madison CD unit for its aid in the recent St. Clair county tornado disaster.

Election judges still inside counting ballots became frightened upon hearing the shot but were assured that it had nothing to do with the elections. MORE ABOUT Mayor Lee

On this basis the two convention delegates, who are elected rather than nominated in primary balloting, are Mudge and Flinn, while Lamar and Bush are elected as alternate delegates. These constitute an exact reverse of political alignments as they were at the beginning of the campaign.

Even more mystifying to political observers is the fact that St. Clair county Democrats would support Mudge to the extent they did since he is an avowed supporter of the Presidential candidacy of Senator Eugene McCarthy. Dr. Lee was a supporter of President Johnson as a candidate for reelection at the beginning of the campaign, but was assumed to support Humphrey after the President's announcement he would not run.

Mayor Fields, as state democratic central committeeman of the district, is a close associate of Chicago Mayor Richard Daley, also a Humphrey supporter since President Johnson's withdrawal.

Political leaders close to Mayor Lee said they "have absolutely no answer" to the strange voting pattern in the delegate and alternate races, but emphasized that "we intend to find out."

On Their Own About the time parents give up the task of guiding the experience takes over the job.

Allen, on the other hand, received an even more disastrous defeat in St. Clair county than did Dr. Lee. He polled only 1961 votes in all of St. Clair county. With the 8381 votes cast for him in Madison, Allen thus received a district total of 10,352, to trail all six candidates in the two races.

Bush, who had polled 7822 votes in the Madison county section of the district, received 13,129 in St. Clair county to give him a total of 20,951 votes.

The Garden Corner

June Drop of Fruits

Many fruit trees perform their annual "June Drop" at this time of the year. "June Drop" is a normal shedding off of some of the surplus fruits that were on the tree.

It is associated primarily with a balance of nature. If too many fruits are pollinated and set, some of them will fall off at this time so that the tree does not bear itself to death.

Other factors may be associated with fruit drop. If pollination was not complete, many fruits will hang on about this long before dropping. Insect injury will cause some

fruits to fall. In a year such as this, spring frosts may cause fruit injury and resultant dropping.

Some fruit trees such as apple and peach occasionally need help in thinning their crop. Now is the time to provide this help by picking off excess fruits that do not fall normally. For best production, size, and repeat bloom next year, thin these fruits so that the fruits are 4 to 6 inches apart.

Cutworms in Gardens
When tomato plants, pepper plants, sweet corn or other garden plants fall over suddenly

at this time of the year, the cause may be cutworms. Cutworms like low, wet spots in the garden. They hide in the soil or under trash by day. Feeding occurs either at night or underground during the day.

Control of this pest can be by wrapping transplants with foil or newspaper to prevent damage or treating the soil with a chemical. The chemical treatment involves spraying the base of the plants with carbaryl (sevin). Use at the rate of two tablespoons per gallon of water and wet the plant stem and soil. Better results will be obtained if some soil is used to cover the sprayed area.

Tax-Bite
The paramount issue at this time of year seems to center around the family budget.

Credit Line Omitted

The name of Lazenby Studio was omitted from the photographs of Miss Granite City contestants which appeared in Monday's issue of the Press-Record. The local studio has been designated official photographers for the 1968 Miss Granite City Pageant.

Four Classrooms Will Be Added to Parkview School

Immediate construction of a four-classroom addition to Parkview grade school, 3200 Parkview road, was ordered Monday night by the Granite City school board.

Opened in September 1966, Parkview school already is overcrowded due to continued residential growth in its area. It was part of a 1964 bond issue program that included Grigsby junior high school, which will be opened in late August.

The rooms will extend the southern classroom wing to the east. Parkview facilities were designed to accommodate up to eight additional rooms. The financial expansion will be financed

by unused 1964 bond funds and other available revenue.

December Occupancy
An architectural contract at \$75,000 was authorized with Virgil Dilgeroff, architect for the original building. It is hoped to see bids in July and occupancy in December.

The project will make it unnecessary to alter Parkview attendance area boundaries. There will be slight overcrowding of some classes during the fall.

Two rooms are to be rented for fall kindergarten age in Peace Lutheran Church adjacent to the school. A trainable handicapped class will be moved to Parkview from Lake grade school.

The Jones Park area, bounded on the north by Kaseberg lane, and Lake drive will be transferred from Stallings school to Lake.

The Lake attendance zone will be altered by transferring Edwards streets to the adjoining Marshall school district, changing the 2801-31st streets area between Omaha street and Edwardsville road to McKinley school jurisdiction.

A detailed review of 1968-69 budget proposals was held, with tentative adoption set for June 26. Financial projections indicate some borrowing may be necessary before the next fiscal year is completed.

The board postponed until the next meeting a decision on whether to proceed with a concession stand-restroom building at the high school athletic field.

Salary of Supt. Bob J. Davis for the next year was set at \$20,250, an increase of \$1,000.

With Board Member Monroe
Worthington the principal spoken, hiring policies desired by the board were outlined verbally. They have been gradually implemented in recent months, and total compliance beginning this month was called for.

Certified personnel are employed on the basis of administrative recommendations and custodians and cooks primarily according to date of recommendation.

Regarding maintenance staff members, secretaries and nurses, the board will require background information on various applicants under consideration before receiving final administrative recommendations.

It was explained that board members in some cases are on an applicant that may not be available to administrators. The policy also is regarded as vesting in the board rather than in the administration the right to make in some of the instances where educational quality is not affected.

The board renewed its student-teacher agreement with SUTSW and authorized a similar agreement with Greenville College. The vote on SUTSW was 4-2, with Worthington and Carl Macias dissenting.

It was decided to create a Grigsby junior high school custodial staff consisting of a lead custodian, five assistants and one person.

The board went on record as urging installation of a pedestrian overpass on Nameoki road at Kirkpatrick Homes.

Parker Named Pres. Of 6CHS Band Parents

Herbert B. Parker, 2478 Waterman avenue, was named president of the Granite City High School Band Parents Association at a meeting Tuesday evening in the band room. He succeeds Earl McMillan.

Others elected include Paul Seebold, vice-president; Mrs. Leland Chandler, recording secretary; Mrs. Frank Meyer, corresponding secretary, and Dale Rea, treasurer.

Mrs. Tom Teague announced that delivery of new band uniforms is expected before the start of school in September. The band is invited to perform at the July 4th celebration in Wilson Park. A total of 120 students are participating in the summer band program.

Parker said the association will hold a regular meeting July 9. No meeting is scheduled during August.

Services to be Fridoy For Mrs. Catherine Reese

Funeral services will be held at 1 p.m. Friday at Third Baptist Church for Mrs. Catherine Reese, 80, of 2124 Grand avenue, who died Saturday in Tucson, Ariz., while visiting her son.

A Granite City resident for the past 60 years, Mrs. Reese is survived by her son, William Reese of Tucson; one brother, Grift Lake of Pontiac, Mich.; and one grandchild. Further details are given in today's obituary column.

Six Incumbents Defeated in Committeeman Races

Six incumbent precinct committeemen, including four Democrats, lost bids for re-election in Tuesday's primary election, which also featured several other close races in the four Granite City townships.

Other types of activity evolved as members of Union Starch Local 7463 picketed the Precinct No. 28 polling place against Democratic incumbent committeeman Walter Noll, leading to a tense watch over the area by state and local authorities.

Noll, who had no opposition in the ballot, received 269 votes, however, and there were no write-ins against him.

A Non-supported candidate in neighboring Precinct 28 was less successful, as incumbent R. D. Ables defeated Clem J. Walker 123 to 92.

Defeated Incumbents

Incumbent Demos who were defeated were Terry Francis, candidate for Legislature, 101 to 79 by Frank Kaylich in Precinct No. 26; Andrew Gasparovic Jr., 95 to 53 by Rufus Lemaster in Precinct No. 6; Carl H. Roach, 169 to 139 to Glenn Romine in Precinct No. 17; Joe E. Roberts, 85 to 32 to write-in candidate Leo Gasparovic in Precinct No. 3; where Leo Harper also polled 71 votes, and Lester Kraft, 132 to 111 by Robert Beedle in Namooki Precinct No. 6 where Russell Robinson and Dale Rea.

The lone GOP incumbent to lose was Harold H. Cain, 49 to 16 to Harold Carson in Chouteau Precinct No. 4.

The closest contest was in Democratic Namooki No. 1, as incumbent C. Arnold Rutherford edged Louis E. Whissell 283 to 277. In Namooki No. 1, Donald E. Kramer out-pollied Frank A. Rickert 80 to 66.

Apparent misunderstanding developed after the count in Venice No. 1 as John Mangiaracino, whose name appeared as a challenger on the Democratic ballot, tallied 22 votes, and then received eight write-in votes on the Republican ballot against incumbent Marion R. Groshong, who won with 19 votes.

Some Mangiaracino supporters objected that he had received more write-in votes, believing he had won the GOP post. There were 38 GOP ballots cast in the precinct.

No votes were cast for committeeman in five GOP precincts, including GC No. 2, No. 9 and No. 30 and Venice No. 7 and No. 10. Others which listed

no candidates resulted in write-in votes.

Amsted Acquires Metal Parts Firm At Geneva, Ill.

Amsted Industries has acquired for cash 97% of the outstanding shares of Burgess-Norton Mfg. Co., a Geneva, Ill., producer of metal parts for a variety of industries, it was announced this week in Chicago by Joseph B. Lanterman, Amsted president. The local American Steel Foundries plant belongs to the Amsted family.

The acquisition was first announced on May 15, when Amsted said it had purchased 56% of the Burgess-Norton outstanding shares. In 1967, Burgess-Norton had sales of \$20,068,000 with net income after taxes of \$737,000. Sales this year are expected to be substantially better.

This is the third major acquisition for Amsted in a 16-month period. The three additions have added more than \$90,000,000 of non-railroad product sales to Amsted's volume, and more than 60% of total company sales are now in non-railroad product lines.

The other companies recently acquired were Litho-Strip Corp., a Chicago prefabricator of coil steel and aluminum, and the Macchivite Co., a Kenosha, Wis., producer of wire rope products. Burgess-Norton operates two plants in Geneva and one in Los Angeles, Calif., and employs more than 300 persons.

Including the new acquisition, Amsted now has 10 operating companies with a total of 36 plants in 15 states and Canada.

PRESS-RECORD SPORTS

Benson, Thompson Cited As Key Cougar Players

A team batting average of .325 was the apparent strength behind Cougar success this season, as SUU-SW freshmen .500 baseball record in its first year of intercollegiate competition.

The record is viewed as the result of hard work, coupled with a scientific batting approach espoused by the baseball coach, Roy Lee. Lee, a former pitcher for the New York Giants, has developed "the angles" for good hitting by indoctrinating his charges with the rules of geometry.

The idea is to make sure the bat is swung in a direct line with the plane of the ball, the articulate Lee explained. "Normally, this takes a lot of practice and, most of all, a relaxed, easy swing."

Curiously, this casual manner created nightmares for many outfielders who faced the Cougars during the six-week season. In one particularly wild contest, the Cougars shelled opposing pitchers for 22 hits and a record-setting 28 runs, including three home runs.

One of the sparkplugs of the SUU-SW offense was freshman centerfielder Carl Benson of Granite City. He took top honors in batting at .408, hit 21 hits out of 46 times at bat, including four doubles, two triples and a homer.

"Most Valuable Awards"

He was followed closely by first baseman Gary Collins of East Alton, who led in most runs driven in with 12 on the strength of a .425 batting average. He recently was named most valuable athlete at the SUU-SW sports banquet, being cited both for baseball and basketball, in which he averaged a 16-point scoring average.

Catcher Bob Reichert of Belleville was the most valuable baseball player, as judged by fellow players. He batted .361, tied with Collins on home runs with two, and "performed like a veteran" behind the plate.

Despite scoring almost six runs per game, the Cougars were shut out on two occasions. They lost their first game of the season 1-0 to McKendree

College and dropped an 8-0 decision to MacMurray College. However, they vindicated themselves in return engagements.

SUU-SW pitching became more stable toward the end of the season and figured significantly in the Cougars' 8-2 win over highly-touted Arkansas State at the end of the season.

Pitcher Don Posa of Edwardsville, the workhorse of the staff, recorded the most wins by a starter with a 4-2 record. In eight games, he had the lowest earned run average at 3.3 and the most strikeouts with 47.

Nance Thompson of Granite City was runner-up in pitching with a 3-2 record. He appeared in six games, struck out 37 batters and had an earned run average of 4.1.

Thompson also contributed mightily with the bat, hitting .417 in 12 games at bat, including a homer. Relief pitcher Joe True of East St. Louis (.440), who appeared in four games, batted .500.

The Cougars batted .319 as a team even with pitchers' hitting included. Lee feels this is a good statistic but he also notes that pitchers should hit as regularly as the rest of the players.

"All players, all, they know what kind of junk is coming to the plate," he smiled; "only a pitcher should know exactly how to hit it."

68 Runs Scored in 3 Park Softball Games

Jacobsmeyer scored five runs in the first inning and went on to beat Local 16 by a 9-4 score Monday evening in 35 & 7 Ever League softball at Wilson Park.

Ollie Jacobsmeyer was the winner and his team backed him with 13 hits and made one error. Russ Terry was the loser; his team had eight hits and committed three errors, all in the first inning.

Getting hits in the first inning were VonDoe Cruise, Paul Gabriel and Harry Taylor. Puett hit a two-run homer in the third.

Dick Yates had a single, double and triple as VFW hammered its way past Coachite 20-15 in the second game Monday.

Coachite had 19 hits and made six errors while VFW hit 22 hits and erred 10 times. Paul Gantz homered in the fifth inning for Coachite.

Mick Adams Pharmacy beat Tony and Joe's 14-6 as the winners pounded out 21 hits. Winner was Schuler and a single each by Douber and Bill Connolly, and Walt Wilson hit a double and triple, scoring three times.

Twins' 1968 Tryouts
Set for June 17-19

The Minnesota Twins major league baseball club will hold its annual tryout camp at Blanchard Park, St. Charles, Mo. June 17-19. Bill Messmann, scouting supervisor for the Twins, will be in charge of the camp.

Head Start Programs to Open in Quad-Cities Monday

Project Head Start, a program of pre-school training and enrichment for disadvantaged children will start Monday at six centers in Granite City, one center in the Harris grade school, Madison, and one at the Venice elementary school on Broadway.

Wade James, area director of the Madison-Venice Head Start program, today requested parents of eligible youngsters to accompany the child to the Harris or Venice center at 8:30 a.m. Monday. Classes at both centers will be conducted daily, Monday through Friday, from 8:30 a.m. to noon.

A number of children already are registered to participate in the summer program, James said, noting that others must be enrolled Monday by a parent or guardian.

All preschool pupils planning to attend daily classes must be accompanied by a parent or guardian the first day, he advised. Children residing in the Venice school district will reg-

ister for classes at the Venice center, while Madison residents will enroll at Harris center, seventh street and Altan avenue.

Bus Service Tuesday

The program director also reported that starting Tuesday, bus transportation will be provided for pre-school pupils living in Eagle Park Acres, who will attend Venice center, and for children residing in Cloverleaf and East Madison areas.

A single bus will be used to transport pupils from the three locales, with Eagle Park youngsters boarding the bus in Eagle Park at 8:10 a.m., beginning Tuesday, and Cloverleaf pupils at the Cloverleaf viaduct on McCambridge avenue. A pickup point also is scheduled at Sixth street and McCambridge avenue, the director said.

The same bus will depart at the Venice center each week-day at 11:55 a.m., with Harris center pupils boarding the bus at 12:05 p.m. for the return trip, James advised.

Six GC Centers

Richard F. Miller, a member of Coalbridge junior high school faculty and area director for Head Start in Granite City, Edwardsville, Livingston and Worth, today reported six centers will be operated in Granite City for the 1968 pre-school program.

Youngsters will attend half-day sessions from 8:30 a.m. to noon, Monday through Friday, in centers located at: Emerson, Logan, Webster, Washington and Marshall grade schools and Kirkpatrick Homes recreation hall.

This week, teachers who will supervise the pre-school program in the Quad-Cities, are participating in a special series of instruction classes at Southern Illinois University-Southwestern campus. All professional personnel, not having previously attended an orientation seminar, are required to take part in the instruction course, Miller said.

The Head Start program is open to four-and-five-year children, who have not as yet

attended school, but will enter kindergarten or a pre-school program next fall. Eligible youngsters also qualify for the summer training program through economic criteria established in guidelines furnished by the Office of Economic Development.

Program Emphasis
Emphasis in the program will be centered upon the emotional, physical and psychological development of the individual child, with dental inspections and physical examinations undertaken early in the program. Excursions and field trips from each center are being planned that will add to the growing knowledge of pupils of this age group, the directors report.

Operating for the fourth year in Madison county, under the auspices of the Economic Opportunity Commission, the 1968 summer pre-school program has been allocated a total of \$108,000 by the federal government, with local agencies responsible for providing in-kind contributions, amounting to \$17,000.

SUSTAINED SUPERIOR PERFORMANCE
award of \$215 and a certificate presented to Edward W. Hoff, 2341 Carlson avenue, of the Army Mobility Equipment Command, St. Louis, by Col. Alvin Hulse, director of supply, while Hoff's supervisor, Mrs. Gertrude Southwick of Granite City, witnesses the presentation.

Poag Road Closed Near University

Poag road is closed from Birch road to section of campus and is being improved with a new concrete pavement to permit alignment with new roadways at the university.

The county highway department announced the closing Tuesday, saying the work project will take six to 10 weeks to complete under a joint county-federal program.

Quad-City students at SIU-SW are urged to use the new south entrance to the university.

MORE ABOUT 25% Vote

In the Alton-Wood River area as well as several sections of the county, Davis defeated Burke, his nearest opponent, a vote of 10,773 for Davis to 6,195 for Burke. Mulvill polled a total of 4140 votes county-wide and never was a serious threat to either Davis or Burke.

Organization leaders sensed some concern, however, as early returns were delivered to the office of County Clerk Eulalia Hotz at the Madison county courthouse in Edwardsville. A small Alton precinct was the first to report returns to the election bureau at 6:55 p.m.

It was nearly two hours before any returns were received from the Quad-City area, during that time a large number of Alton, Wood River and Groesbeck precincts piled up a substantial lead for Burke over Davis.

Scroggins ran a neck and neck race for several hours with the spread between his vote and that for Durr varying at times by only 10 votes. Scroggins has been serving as state's attorney by appointment of the county board of supervisors and his political strength for the Quad-City was an unknown factor until Quad-City precincts began making election returns.

Strong In Quad-Cities
In Granite City's 32 precincts, Scroggins defeated Durr by 3052 to 1334. In Venice he polled 1543 votes to 734 for Durr. Nameki Democrats gave Scroggins 1096 votes to 738 for Durr. Chouteau gave Scroggins the smallest proportionate majority, 432 to 364. This gave Scroggins a total Quad-City area vote of 6123 to 3770 for Durr, a majority of two to one.

Davis showed considerably more strength than Scroggins in the Quad-City area. In Granite City Davis polled 3440 votes to 861 for Burke and 590 for Mulvill. His vote in Venice's 11 precincts was 1729 to 582 for Burke and 269 for Mulvill. Nameki Democratic voters gave Davis an almost five to one victory, a total vote of 1306, compared to 326 for Burke and 297 for Mulvill. Chouteau Democrats also favored Davis, giving him 488 votes to 188 for Burke and 164 for Mulvill.

On the basis of these returns, Davis' overall vote in the great 54 precincts was 6943, with 1943 going to Burke and 1277 to Mulvill.

Other Contests
Contests for the state's attorney's office and the coroner's office made up the only opposition at the county level, although Democratic contestants also were waged at district level for election as delegate and alternate to the national nominating convention, and for two Madison county members of the levee board. Three other incumbent Democratic officeholders were automatically nominated because they had no opposition.

John Kraynak, incumbent county auditor, polled 17,706 votes, 8297 of them cast in the four townships of the Quad-City area. Willard W. "Butch" Portell, incumbent Democratic circuit clerk, polled 17,947 votes with 8635 of them coming from the Quad-Cities. James F. Chapman, recorder of deeds, polled 18,019 for renomination. Chapman received 8424 of his votes from the Quad-Cities.

Apart of the Republican candidates for county offices were nominated without opposition. Total vote for each from the 185 Madison county precincts, was:

Davis, 6943; Burke, 3770; Mulvill, 2699; Chapman, 8424; Portell, 17,947; Kraynak, 17,706; Burns, for recorder of deeds, 6881; R. W. Griffith, state's attorney, 6788; Robert Thomas for coroner, 6670, and Peter E. Fuchs, for county auditor, 6589.

Venice School Board OKs Fund Transfers

A special meeting of the Venice school board to transfer funds to meet new construction payments was called Tuesday evening by Board President Michael E. Leatherman Jr.

In the only other business transacted by the board, permission was granted to the Khoury League for use of the Venice school baseball diamond three evenings a week.

Transferred by resolution from the educational fund to the building fund were sums of \$7431 and \$20,000 to meet a \$16,024 payment due Leo Wolf Co., contractor for the new \$102,000 addition at Venice grade school.

An advance payment of \$3073 against an \$18,000 note, payable to the contracting firm next month, also was authorized.

School Supt. John O. Pier noted the \$7431 amount was reimbursed to the district under Public Law 874, which provides funds to school districts proportioned on the number of students enrolled whose parents are federal employees.

A regular meeting of the Venice school board is set for next Monday.

Business Course Workshop Set

Several courses and workshops in business education will be offered during the summer quarter at Southern Illinois University-Southwestern campus at both undergraduate and graduate levels.

The undergraduate program, which includes three sections of typewriting and one of advanced shorthand, begins Monday and continues through Aug. 30. The graduate studies, consisting of both workshops and courses, start Monday and end Aug. 9. Subjects in the graduate program include business education, tests and measurements, data processing, stenography, business education research, teaching skills and others.

Classes will be taught by faculty members of the Business Division. Officials said the programs will be broken down into time modules to accommodate varying schedules.

Further information is available through the business education department at the Southwestern campus.

Edward Craig Woods

Enlists in Marines

Edward Craig Woods, son of Mr. and Mrs. J. E. Woods, 4069 Vesce avenue, left Tuesday for basic training with the U. S. Marine Corps at San Diego, Calif.

A 1966 graduate of Hillsboro high school in Nashville, Tenn., he enlisted for a two-year tour of duty. He had attended Middle Tennessee State University and was employed at Granite City Steel Co. prior to his enlistment.

Contract Talks Resume For Madison Teachers

Contract negotiations were resumed Wednesday evening between the Madison school board and the Madison Teachers' Association Local 763 following a three-week suspension.

Another session is scheduled for 7 p.m. Tuesday at the board office. Meanwhile, the teachers' salary committee is to meet with federation members to discuss progress and proposals.

Negotiations were broken off last May 21 over apparent misunderstandings. The board has offered salary increases from \$31 to \$55 per month. The local has asked salary increases of \$128 per month for new teachers, a decrease in the size of classes and other benefits.

Ballots by GC Voters In Nameoki Township

Possibility of a contest in the Nameoki Precinct Six three-way Democratic commitment race arose yesterday with disclosure that 38 residents of Granite City Precinct 32 voted Tuesday in Nameoki Six.

Alderman Gerald Parmley, new member of Precinct 32, said incorrect voter cards had been issued by Madison County. After the error was discovered during the day, others were permitted to vote in Precinct 32 by affidavit, he added. The 38 reside on Maryville road, Newell, Edgewood and Killarney drives and Willow and Zippel avenues, Parmley said. In two instances, husbands had received cards for Precinct Six and their wives for Precinct 32.

Bagworm Time Is Here
Now is the time for you to clean up bagworms on your shrubs and evergreens.

Baby bagworms may not be easy to find, but you can be sure they are busy getting fat. Colonies of bagworms are developing in the vicinity of oaks from last year.

Control is simple and effective. One spray application of Carbaryl, Malathion or Diazinon in early June will wipe out the entire colony.

Early season control is the key to success. As bagworms mature they become more resistant and finally become so tough and fatty these sprays seem to lose their punch.

Sycamores Drop Leaves
Sycamores took another beating last week when wind, rain and fog caused another epidemic of Sycamore Blight.

Blighted leaves have begun to drop and may look frosted or burned. Every leaf will show darkened areas along the veins or the main stem from the fungus infection. Clear warm days last weekend stopped the disease before the fungus could blight the twigs and limbs.

Recovery and survival of the tree depends on vigor of the tree. Extra fertilizer under the tree or keeping a well fertilized lawn will supply the necessary nutrient for strong recovery.

Unless you can predict another cool rainy period, do not spray your tree. Warm weather normally prevents development

of the disease and helps the tree recover.

Spraying does benefit the tree in early spring during cool rainy periods. An early spring spray of organic mercury as buds open will usually provide good control. Cool wet springs like the 68 season requires a second application.

Pin Oaks Have Problem
Curled leaves and enlarged yellow veins on pin oaks is vein pocket gall.

A tiny insect attacks the leaves in early spring and causes the tree to produce pocket galls along the veins. During the spring and summer the larva develop inside these tiny galls. In early fall these insects drop to the soil to hibernate.

Control involves protecting the tree in early spring or destroying the insects as they emerge from the soil. These insects cannot be controlled inside the leaves.

One application of Malathion in the spring as the buds open will usually protect the tree. Treating the soil with chlordane in late March is equally effective, unless your tree is part of a whole grove. If nearby trees are untreated, then insects will fly over to your property and spoil your intention.

Summer Care of Peonies
Full sun and adequate water is the key to continued success with peonies.

After peonies bloom, they begin to store energy for next year's shoots and flowers. Shade and drought weaken the plant, causing poor flowering and spindly stems. Too many bouquets will also reduce flowering when more than half the leaves are removed with the flowers.

When you can maintain vigorous summertime foliage and fertilizer at bloom time, your peonies are sure to prosper. Spread 12-12-12 fertilizer near

Assigned at Oakdale, Pa.

Sgt. Harry E. Clark Jr., son of Mr. and Mrs. Harry Clark Sr., 1731 Market street, Madison, has been at home on a 35-day leave, following 18 months duty with the Army in Vietnam.

He has been re-assigned to a missile base in Oakdale, Pa. for the remaining 9 months of his enlistment. His new address will be, Sgt. Harry E. Clark Jr., RAS38153 U. S. A. Strat. Com. Pittsburgh Sig. Co., 31st Arty. Brigade Cad, Oakdale, Pa. 15071.

Auto Light Charge

Leon E. Dickey, 2676 Highway 3, was charged with driving without tail or stop lights at 9:20 p.m. Wednesday at 23rd street and Madison avenue.

James J. Stevenson, 2033 Quincy street, was charged with improper lane usage at 1 p.m. Wednesday on Nameoki road at the Bellemore Village shopping center.

the plants, using one pound per ten plants. Apply the same amount next spring as they begin to grow. Mix the fertilizer in the soil as you cultivate to control grass and weeds.

Swapping Iris
If you plan to add more color to your iris border, arrange your deals while they bloom. Postpone the transplanting until late summer.

Early spring transplanting will spoil the growth pattern of the plant and discourage next year's flowers. Late summer transplanting when the roots are dormant doesn't harm flowering and is timely to add fertilizer and remove weeds.

If you are discouraged with your iris beds, then look over this checklist. Iris need full sun, plenty of drainage and good fertility. When shade trees provide too much shade and compete for moisture, this fall may be the year to divide and transplant the whole bed to a better location.

Marriage Counseling and Sex Education Study at SIU-SW

Workshops in marriage counseling and sex education will be conducted during the summer quarter at the Southwestern campus of Southern Illinois University.

A workshop on marriage counseling gets under way Monday and continues daily Monday through Thursday until July 3 in Room 6037 of the Peck Classroom Building. The sex education workshop starts July 3 in Room 6034 and goes to July 18. Both classes will meet at 6:30 p.m. under the direction of Donald L. Taylor, professor of social sciences.

Called Summer Program in Family Studies, the courses are jointly sponsored by the Social

Sciences and Education Divisions and the University Extension Services. Participants may register for credit or on a conference basis.

The four-quarter-hour course on marriage counseling is designed for persons now in counseling or those preparing to do counseling as part of their professional practice. The three-hour sex education class seeks to encourage elementary school teachers to integrate sex education into their teaching program.

Applications for admission to these studies may be secured by writing the Admissions Office. Further information can be obtained by contacting Taylor at 692-3786.

Record Buying at Mitchell, Pontoon; Area Total Down

A 14% decline in 1967 Quad-City area purchasing from the \$100 million annual level achieved in 1966 was due principally to a reduction in buying by manufacturers, an analysis of Illinois Revenue Department records showed today.

Major decreases were in Granite City manufacturing, food and automotive service stations. Major gains occurred in Pontoon Beach food buying and Mitchell automotive stations.

The \$87,422,707 grand total for the Quad-City area in the last calendar year included \$18,708,978 purchasing by manufacturing firms. Similar figures in 1966 were \$101,836,988 (grand total) and \$29,129,082 (manufacturers).

Furniture, Radio Increases Statistics other than on purchases by manufacturers showed only a slight decrease in economic activity. Seven of the nine non-manufacturer categories dropped slightly; general merchandise and furniture-household-radio showed small gains in the Quad-City area.

A breakdown for 1967, with 1966 levels given second, follows: food purchasing, \$21,489,419 (\$22,782,216); automotive and filling stations, \$14,745,493 (\$15,408,477); general merchandise, \$7,662,477 (\$7,521,167); drinking and eating places, \$6,983,131 (\$7,041,522); retail-wholesale stores, \$6,658,638 (\$6,774,497); furniture, house-hold goods and radios, \$4,968,230 (\$4,414,750); lumber, building supplies and hardware, \$4,333,467 (\$4,438,352); apparel, \$2,831,612 (\$2,944,069); miscellaneous, \$2,444,246 (\$1,204,490); and manufacturers, \$16,798,978 (\$29,129,082).

The buying levels are determined by projecting sales tax revenue, the state portion of which was 3 1/2% of gross sales through June 30, 1967, and 4 1/2% beginning July 1, 1967.

On a geographic basis, purchasing in 1967 slumped in Granite City, Madison and Venice (with the manufacturing buying figures the main factor in each instance).

New Records in 2 Areas In contrast, 1967 buying soared in the Mitchell area and the Pontoon Beach village area, setting new records in both of these territories.

A listing by municipalities shows the following totals: Granite City, \$72,860,467 in 1967 (\$87,210,522 in 1966); Madison, \$10,115,139 (\$10,601,038);

Venice, \$2,451,572 (\$2,331,996); Mitchell, \$1,497,286 (\$1,014,322); and Pontoon Beach, \$478,241 (\$279,107).

Breakdowns for each of these territories follow: Granite City—\$6,716,530 general (\$4,554,528); \$15,631,256 food (\$16,981,882); \$4,885,431 drinking and eating (\$5,210,725); \$2,778,226 apparel (\$2,884,449); \$4,101,408 furniture (\$3,492,822); \$3,745,295 hardware-lumber (\$3,789,383); \$12,314,121 automotive and stations (\$13,408,725); \$5,553,116 retail-wholesale (\$5,439,853); \$873,392 miscellaneous (\$925,058); and \$16,583,691 manufacturers (\$28,843,110).

Less Food, Restaurants Gain Madison—\$827,506 general (\$971,111); \$4,238,345 food (\$4,311,504); \$1,537,748 drinking and eating (\$1,386,689); \$75,386 apparel (\$70,620); \$887,688 furniture (\$821,765); \$166,373 hardware-lumber (\$257,457); \$1,215,533 automotive and stations (\$1,254,468); \$738,379 retail-wholesale (\$1,048,059); \$223,857 miscellaneous (\$349,343); and \$146,056 miscellaneous (\$230,021).

Venice—\$118,442 general (\$84,354); \$1,191,380 food (\$1,282,622); \$219,427 drinking and eating (\$165,864); \$5154 furniture (\$48,017); \$531,489 automotive and stations (\$324,583); retail-wholesale (\$286,530); \$146,056 miscellaneous (\$230,021); and \$59,957 manufacturers (\$98,399).

Mitchell (no general merchandise) (\$550); \$30,834 food (\$44,389); \$218,901 drinking and eating (\$184,534); \$4000 furniture (none); \$265,628 hardware-lumber (\$342,744); \$943,688 automotive and stations (\$641,288); \$6311 (\$520); and \$344 manufacturing (\$378).

Pontoon Beach—\$349,694 food (\$181,917); \$101,623 drinking and eating (\$93,708); \$20,175 automotive and stations (\$17,409); \$12,214 retail-wholesale (none); \$1040 miscellaneous (none); and \$4559 manufacturing (\$6172).

Third Best in Area The \$87,422,707 purchasing total in 1967, while lower than the previous year, is the lowest highest in local history. Rush-nurp to 1966 was 1964.

Yearly totals since 1937 follow: 1937, \$57,981,509; 1938, \$52,186,281; 1939, \$58,679,800; 1940, \$59,274,181; 1941, \$63,854,784; 1942, \$60,559,473; 1943, \$69,776,567; 1944, \$82,246,186; 1945, \$101,836,988; and 1967, \$87,422,707.

14,682 votes cast in the district's 131 precincts, with Calvo in second place. Calvo polled a total of 12,869 ballots in the district.

Briggs, pulling a substantial lead in his home area of Nameoki township as well as a number of Venice precincts, ran third with 926 votes, topping Francis, his nearest opponent, who received a total of 593.

The other four candidates in the state representative race never were a serious threat, although David P. Crivello, an SIU student of Alton, polled an unusually heavy vote in Alton and Wood River precincts.

Other votes for state representative were: Robert Ford, Wood River, 273; Crivello, 1960; Sam P. Drenovach of Mitchell, 1629; and James E. Walker of Granite City, 1364.

State Rep. Smith on the Republican ballot polled an unopposed 12,287 votes. The fact that Rep. Smith's vote was higher than the total vote cast was due to the cumulative system of voting under which a legislative candidate may receive three votes, if he receives the only vote cast by a voter.

Under the same arrangement the two candidates receiving a vote on the Democratic ticket are allowed one and a half vote each.

call for its expansion into one of the largest technical education facilities in Illinois.

Although state-financed, the curriculum, policies and staffing of the school continues to be the responsibility of the Venice School Board. Late last month, board members approved the appointment of Duane Rankin, Venice high school industrial arts teacher, as director of the vocational center, directly accountable to Supt. Pier.

Pier said classes in auto mechanics, machine shop, graphic arts, welding and other vocational areas should be in progress next January.

The business education department will be under the supervision of Donald Davinroy and James Gregg. Davinroy, a teacher in the Collinsville school system last year, was named in May to supervise the department on a year-around basis. Gregg is the business education instructor at Venice high school.

The department is now fully equipped, Rankin noted, explaining that furnishings include 18 typewriters, desks, adding machines, calculators, mimeograph and duplicating machines, tape recorders and other office equipment.

John Rush will teach the household mechanics course, which involves consumer information and instruction in remodeling homes, "do-it-yourself" projects and general home repairs.

The course provides information to persons unaware of pitfalls in purchasing items with which to improve or remodel homes, how to deal with tools, materials and services.

He said among those attending the household mechanics evening course which started last November, one enrollee has since entered a carpenter's apprentice program and a woman student is now employed at a small appliance repair plant. The course is open to both men and women.

Teachers in the General Education Development program are Jack Gilmore and Robert McKinney. A third instructor may still be added, Rankin said. The program offers participants an opportunity to complete their high school education and receive a high school equivalency diploma.

The Basic Adult Education course will be taught by Mrs. Anna McKinney, assistant principal of the Venice grade school, Clarence Hand and Mrs. Mattie Richard, both members of the Venice faculty.

Ronald Ganschietz will serve as guidance counselor to students enrolled at the technical center, Rankin explained.

Currently, the Bi-State Transit System is preparing a bus schedule for pick-up and return of students to points closest to their residences, the school official said.

Students will be required to provide their own lunches through the summer months, as the cafeteria at Venice-Lincoln will not be in operation until September.

Plans are under way to provide a program this fall, similar in scope to Project Head Start for three-to-five-year-olds, whose parents are attending the school.

Persons receiving public aid may attend the school without a nominal cost, Supt. Pier said. No fee has yet been established.

Time Marches On In days gone by it was the full dinner pail that interested the average working man, but today he wants a full gas tank.

Kennedy, Calvo

were "front runners" in the state representative race since the filing period opened three months ago. All conducted intensive pre-election campaigns.

Kennedy Led Voting Rep. Kennedy led the voting in the representative primary all the way, with the voters' choice obviously lying between Calvo, Briggs and Francis. The voting lead shifted several times as voting returns were reported in Tuesday night and early Wednesday morning from the 131 precincts of the district.

The 55th Representative District is made up of Granite City, Venice, Nameoki and Chouteau townships in the Quad-City area, and Collinsville, Wood River and Alton townships in other parts of the county.

Calvo pulled steadily ahead as final returns came in at the Edwardsville election bureau of Miss Eulalia Hotz, county clerk, Tuesday night. Calvo frequently lost the lead, as voting results varied from precinct to precinct.

In the final tally Rep. Kennedy headed the ticket with

Golden Circle Picnic at Park

Members of the Golden Circle of the Kirkpatrick Homes attended a picnic at the Wilson Park ice rink Tuesday as the guests of Harold Brown, park superintendent, and his office staff.

Rev. W. L. Showers, retired pastor of Second Baptist Church, gave the invocation. Brown spoke on the construction of the ice rink and invited the club to the activities offered by the park district.

Tentative plans were announced for the members to attend a ball game at Busch Memorial stadium June 20.

The next business meeting will be at the recreation hall of Kirkpatrick Homes on June 25 at which time those with birthdays this month will be honored.

RUTH CLASS TO AID MIGRANT WORKERS

Mrs. Vi Wallace entertained members of the Ruth class of Third Baptist Church Tuesday evening in her home, 2960 Madison avenue.

Mrs. Naomi Black opened the meeting with prayer and Mrs. Thelma Peterson, president, presided. Several reports were given by committee chairman and officers.

Cards were signed to be sent to church members who are ill. Plans were completed to donate additional items to migrant workers living near Peoria.

Devotions were presented by Mrs. Peterson on "Invisible Price Tags."

During a social hour, games were played and prizes went to Mrs. Dorothy Born and Mrs. Helen Redford. A dessert luncheon was served by the hostesses to those named and Mrs. Julia McLean and Mrs. Ivan Graklanoff.

Next meeting will be in the home of Mrs. Margaret Williams, 2010 Pontoon road, July 9.

GC Church Class Told of Wedding

Mr. and Mrs. Cho Sang Yong were married recently at the Youngdong Catholic Church in Seoul, Korea.

The bridegroom, whose wife is the former Miss Kim Yoon-Koo, was sponsored by the Comrades Class of First United Presbyterian Church here since he was in an orphanage in Pusan, just after the Korean Conflict.

The class collected and sent boxes of clothing to orphanages. They were distributed by James E. Wade, a son of Mr. and Mrs. E. J. Wade of 2519 Madison avenue, who was then in the armed forces in Pusan. Mr. and Mrs. E. J. Wade packed and mailed the boxes and Cho Sang Yong, who received one of them, and wrote to them.

This correspondence is still going on. When Cho was old enough for "middle school," the same as high school here, the class decided to assist him through school by sending money each month through the church's Ecumenical Mission in New York.

In the meantime Cho had moved to Seoul. After he finished high school he wanted to go on to college, so again the class helped him each month. He also took odd jobs and did tutoring to help support himself. He is currently working toward a master degree in Business Administration.

The young couple is living in Seoul for the present.

Murphy Twins Top Male Graduates at Southern

The Murphy Twins from Granite City have added another trophy to their extensive collection of scholastic honors, as they have topped the entire male contingent of Southern Illinois University's 1968 candidates for the bachelor's degree.

They just missed being No. 1 and No. 2, however, for a secretarial-business education major, Mrs. Karen Louise Knight of Galatia, beat both of them on grade points. Her four-year score was 4.973. Thomas Murphy's was 4.969 and Edwin Murphy's 4.964 out of a possible 5.0 for straight A's all the way through.

Each of the three had to confess that a course or two in physical education stood in the way of a perfect score.

Each was tapped by the SIU Foundation to receive a plaque and a \$50 check, the first annual Awards of Excellence to be given on the Carbondale campus. Only two were originally planned—one for the top girl senior, the other for the top male senior, according to Kenneth R. Miller, but the Murphys came so close to identical scores that the Foundation decided to honor both of them and give three plaques instead of two.

The three students were guests of honor at a luncheon in the University Center where their trophies were awarded.

The twins will be separated for the first time next fall. Thomas Murphy has been accepted at Columbia University for graduate studies majoring in international affairs, while

AWARDS FOR EXCELLENCE presented to Thomas and Edwin Murphy, Granite City twins, who added plaques to their extensive collection of scholastic honors presented by William D. Hall, assistant professor of printing and photography at Southern Illinois University at Carbondale. They also received \$50 checks as double winners of the SIU Foundation's first such awards.

Edwin has been accepted at Harvard University to major in public administration. Both have received substantial fellowships for their graduate studies. At SIU they have majored in printing and photography, and have held scholarships from the graphics industry during their four undergraduate years.

3732 New Students Approved at Illinois State

A total of 3732 new students—2880 beginners—have been approved for admission to Illinois State University for the fall term, a report issued by the office of admissions and records shows.

The tally, through May 31, is running 508 ahead of the 3164

approved for admission at this time a year ago. Academically, these students approved for this coming September rank higher than any class in recent years at ISU, with 58.4% in the top quarter of their high school graduating classes.

Peace Medallions Being Sold for SIU-SW Fund

Quite by accident two Southern Illinois University-Southwestern campus staff members are collaborating on a project to sell peace medallions and using the proceeds for the SIU-SW Foundation scholarship fund.

They are David Huntley, associate professor of art, who to sell peace medallions and Charles Schweizer, assistant director of the foundation, who sells them.

Schweizer acquired his first medallion on his birthday, May 18. It was given to him by a neighbor boy. That evening he wore it to a University Theater production, hoping his friend Huntley would see him. Things couldn't have worked out better. Huntley sat in front of him, also wearing the peace symbol, and his first comment was, "You're wearing yours upside down."

"No, I'm not," replied Schweizer. "You are!"

It suddenly struck Schweizer that selling them would be an ingenious way to earn money for the foundation scholarship fund. He asked Huntley if he would make them. Huntley agreed, and that is how the two "went into business."

Wearing a peace symbol became popular among the young "peaceniks" a few years ago when the controversial English-

born author, Bertrand Russell, launched his "ban the bomb" crusade.

Describing his version of the symbol and why he wears it "upside down," Schweizer said he believes it was taken from the Gothic chasuble, a sleeveless outer vestment worn by the celebrant at mass, so he wears his medallion, with its unbroken circle, as a sign of the risen Christ and eternal life.

"I think 'ban the bomb, peace at any price' followers took the Christian symbol for peace and misused it," Schweizer asserts. "I am a firm believer in honorable peace," the retired Army colonel continued. "I feel every Christian believes in peace, but not at the sacrifice of freedom."

Huntley wears his medallion as a peace symbol in the conventional way, like the "peaceniks." To him it represents the bomber and ring that contains it. Huntley pointed out that the symbol goes back to primitive man, and that it is also a sign of fertility.

The peace symbols sell for a dollar each and Schweizer says, "You can wear them anyway you like, just keep the orders coming!"

Employment Prospects Bright for College Grad

Employment prospects for 1968's record number of college graduates are exceedingly bright, according to the findings of a just-released Department of Labor study.

In releasing a summary of job opportunities in several major fields, the department reported that this year's graduates—more than 820,000 of them—will not be able to fill all career openings offered.

More than 670,000 men and women will receive bachelor's degrees and 150,000 will receive advanced degrees, representing the largest graduating "class" in U. S. history.

As graduation nears, never has there been such a strong, three-way pull for American college graduates—from industry, graduate schools and the military draft.

Industry Active
Expecting a smaller pool of draft-exempt graduates this year, industry is recruiting very actively. More jobs are being offered to the 1968 graduates than to 1967 graduates.

The competition between employers for this year's graduates shows up clearly in the starting salaries being offered, which top last year's by about 5%.

Many of the young men in this year's graduating class faced with pending military obligations are uncertain about their immediate future, particularly with respect to employment and graduate school.

The nation's colleges report, however, that a pending military obligation does not necessarily jeopardize a young man's chance for employment or graduate study.

Graduates are therefore being urged to use every opportunity to gain work experience commensurate with their talent or to pursue graduate studies, even though they may be called for military service.

Compete for Talents
Private industry, government agencies and academic institutions are all competing for the talents of 1968 college graduates.

The most sought-after graduates are those in accounting and engineering. Opportunities are also exceptionally good for health professionals, social workers, librarians, chemists, teachers, physicists and mathematicians.

Business administration and liberal arts majors have a favorable outlook. Sales careers in insurance and real estate and in pharmaceutical and other manufacturing industries provide many opportunities for these graduates.

Apart from the outstanding demand for accountants, business administration majors are sought for management trainee programs, business analysis, production control and marketing.

Liberal arts graduates are being offered jobs in computer programming, personnel and merchandising. Increased demand is also reported for liberal arts majors to plan and staff public and private programs.

graduates dealing with the problems of inner cities and depressed rural areas.

Graduates with majors in anthropology, art, drama, English, history, language and philosophy may experience some difficulty in finding suitable employment, particularly if they are unwilling to relocate or to accept positions outside their major field of study.

Negro Graduates
Negro college graduates are receiving more job offers at higher salary levels than a year ago as employers actively seek Negro graduates to fill openings in virtually all fields of work.

Women graduates will find prospects especially bright in mathematics, accounting, data processing, and the natural sciences in addition to their traditional opportunities in teaching, nursing, library work, social work, counseling and retailing.

Recruitment by aerospace companies is somewhat less active than in recent years but the industry continues to employ large numbers of scientists and technical graduates. Recruitment activity by other industries with military contracts has also slowed. Increased activity is reported, however, in a number of industries, including food processing, retail trade, data processing, food and machinery. State, local and federal government recruitment remains active.

Graduates who are undecided about their careers can turn for guidance to many sources. College libraries and counseling offices are likely to have the Department of Labor's "Occupational Outlook Handbook," a guide to career opportunities in about 700 occupations and 30 major industries.

State public employment service offices affiliated with the U. S. Employment Service provide graduates with information on employment throughout the country. These offices list job openings, indicating the types of workers in demand in specific areas.

Holly Society Aids Aboretum at SIU

A 300-acre Aboretum at Southern Illinois University's Little Grassy Lake Outdoor Laboratory has its first resident, an American Holly plant that is planned as the forerunner of 5000 such bushes in a special 20-acre holly area.

It's one of 500 plants donated to SIU by the Great Rivers chapter of the American Holly Society, a five-state group headed by Anna Rumsom Bon Hartline. The society has designated the SIU Aboretum as an official testing area for cultivated varieties.

John Reeves, Aboretum director, said the Laboratory now has about 500 American Holly specimens representing 200 different varieties, all donated by Great Rivers chapter members. The display that is planned would include species groupings, an ornamental area, and a section for experimentation.

The part of the Aboretum now ready for cultivation lies along the Giant City-Little Grassy Lake road about a mile south of the park's south entrance. Development of a nursery area and bath house facilities began four years ago.

Nearby is a wooded area being developed as an experimental forest by SIU, particularly for hardwoods research. Reeves said the American Holly area will be the first phase of the Aboretum. Plans call for an administration building and roads, pathways and open areas for the visiting public.

SIU Zoologist Uses Well As Salamander Aquaria

When Southern Illinois University was hurting for space not so many years ago, it wasn't unusual to find science laboratories crammed into closets, basements, garages and attics.

Now comes a zoologist who's moving his research office into a 16-foot-deep farm well and it's all his idea.

Ronald Brandon thinks his big, abandoned cistern west of the main campus is the finest facility for his purposes that could be imagined, short of the real thing. That would be a natural cave, but there aren't any close to SIU that harbor what Brandon wants to study firsthand and close-up—the rare cave-dwelling salamander.

The cistern, 10 feet across and unusually well built, is being transformed into a subterranean, split-level cavern that will harbor both the research

subjects and the researcher. At the cool, damp bottom, Brandon is building vat-like aquaria for a colony of grotto salamanders that he'll translocate from caves in the Missouri Ozarks. Above that, slightly less than halfway up the cistern, a platform is going in that will be the floor of Brandon's laboratory. A roof with storm-cellular type doors will cover that at ground level.

Brandon will be able to go down to the vats for observations, then up to the first level to record and experiment. A sump pump and electrical wiring for equipment and lighting have already been installed.

"It's kind of a hare-brained idea, but it should work very well," Brandon said. "I know there are one or two cave laboratories in Europe, but I've never heard of anything like this anywhere."

Brandon said he's done some research on cave salamanders in his campus laboratory but has always been frustrated because they die readily unless maintained in a constant cave-like environment. "That's almost impossible to do unless you've got a controlled environment laboratory and they cost thousands," he said.

Mayor Calls Upon Courts to Aid Fight Against Crime

In his monthly report to Granite Cityans issued today, Mayor Partney called upon courts to give more concern to enforcement of laws to prevent crimes on the streets.

He also noted the progress being made in the city on several projects, including sanitary sewer installation in North Granite, the scheduled start today of the storm water drainage project, the work on the south section of Namooki road and the employment of 50 youth of the community this summer under a federal program.

The text of the monthly report follows:

"The month of June is a month of sorrow for the citizens of the United States with the assassination of Senator Robert F. Kennedy. The tragedy of his death has been more than their share of personal tragedy. I think the American people should recognize themselves to the principles of humanity.

We think these terrible crimes cannot happen in our great country but they seem to be happening more frequently. Our entire society is blamed for the actions of a small, delinquent minority. I believe the courts of the land will have to shoulder the larger percentage of the blame because of their lack of enforcement of the law. We don't need new laws, only the old ones enforced.

"I am happy to be mayor of a city, such as ours, where everyone can feel free to walk on our streets safely. Last year, when in our United States Capitol in Washington, D. C., I was informed to stay off the streets at night as they were not safe.

"Good Month in GC
"June is a good month for the citizens of Granite City with the annexation of Reilly Tar & Chemical Corp. and many other projects which are starting.

"Most of the homes in North Granite will be ready to tap on the sanitary sewers this month, which will make a much healthier climate in this section. This project should have been done years ago but without Federal aid, this was impossible.

"Today, June 10, the S. M. Wilson Co. of Granite City will start construction on the storm water drainage system and the separation of the sanitary sewers in most of the older section of the city. Our streets will be torn up through construction, so please bear with us.

"This work in Unit I will immediately affect the drainage in adjacent areas, it will materially improve the flow of water runoff. It will immediately enable sanitary sewage from outside Unit I to have a place to go during rain, ending all overflows and backups.

Storm sewers will extend through the older section of the city and connect to the present Namooki channel.

Progress is being made by the A. H. Seebold Co. of Granite City on the south half of Namooki road.

Scope of Youth Programs
"On June 17, we will start our youth opportunity program employing 50 boys and girls.

"These youths will be paid with federal funds. Existing public services for youth need to be strengthened and improved and joined with private resources. The summer months provide an exceptional opportunity to enhance the sound growth and guidance of youth.

"Working with our coordinated Youth Services and city citizens, we will set up a group of youth coordinators on the planning and operation of programs which provide jobs, education, recreation and other activities for disadvantaged young people. This can be done through full cooperation and support from every community resource, public and private.

"It is essential that every young person experience the challenge and satisfaction of holding a job during the summer. These youth coordinators will continue to build programs that meet the needs of our youth on a year-around basis. Substantial participation by youth will not just happen.

"Our young people, particularly older youths, in low income areas are not accustomed to being consulted. They are suspicious of outside institutions, ideas and people. Most teenagers and young adults have a strong desire for summer jobs to attain spending money, status, job experience and the opportunity to associate with adults in a mature manner. This is what we hope to provide in our city.

"I extend my welcome to all citizens to attend council meetings on the first, third and fourth Mondays of each month to see your government in action."

Port District Favors Alton Lock 26 Project

A resolution favoring plans for construction of new dam and lock facilities near Alton was adopted by the Tri-City Regional Port Authority board in a regular meeting at the Port offices Monday afternoon.

The new facilities proposed by the U.S. Army Corps of Engineers would be located south of the present Alton dam and would provide enlarged lock installations to accommodate a mounting volume of river traffic.

Port representatives expressed their approval of the project at a recent public hearing in Alton.

The board was notified of the reapportionment of John Bellcoff, Madison, to a new three-year term as a member of the port authority board. The appointment is made by Mayor Maeras and confirmed by the state.

BREAKING CONCRETE on Hall street to prepare for the initial installation of storm water drainage lines. The work was started Tuesday by S. M. Wilson & Co., contractor for the \$3,000,000 project.

Preliminary Work Starts on Storm Sewers, Johnson Rd.

Work on two major projects was started this week in Granite City—the initial phases of the long-awaited storm water drainage system and improvement of Johnson road.

Crews of S. M. Wilson & Co. began preliminary work Tuesday for installation of the drainage lines in East Granite, and A. H. Seebold & Co. is to start on the Johnson road work today.

Representatives of the Wilson Co. met Monday night with Mayor Parney and members of the city council to go over the drainage project timetable. Marion Wilson explained the firm expects to start immediately with five spreads (crews and equipment) and add a sixth spread within a short time. It was explained that during stages of construction, streets and driveways will be blocked.

This Week's Work
This week, concrete is being broken in the street along Hall street from East 23rd street to Lincoln avenue and along East 23rd street from Bromley and August streets to prepare for

the installation of the drainage lines which will separate storm water from sanitary sewers.

Next week the "concrete busters" will move to Lincoln avenue between Bromley and August, East 23rd between Hall and Kate streets, Hall street between Lincoln and East 24th and along August street.

The drainage lines along Hall street are to be from 12-inch diameter to 27 inches; Kate street, 15 to 27 inches and August street, 27 to 38 inches.

The \$3,000,000 construction contract is the first step toward separation of storm water from the present sanitary sewer lines in the older sections of Granite City. It is being financed with the \$1,500,000 general obligation bond issue approved by voters a year ago and a \$1,500,000 grant of federal funds.

Summer Schedule
Work this summer will include the cross streets in East Granite—Hall street from this week through July 8; Kate street, July 11 to 25; Ridgedale avenue, July 28 to Aug. 12;

Edna street, July 15-20; Charles street, July 26-29; Louisa street, Sept. 3.

The pipe installation crew will be at work on August street from next Monday through July 15; on Henry street from July 18 to Aug. 9; Monroe street, Aug. 14 through Sept. 9.

Another crew is to start along 23rd street July 1, and will be on Bromley avenue from July 16 to Aug. 2.

Other storm sewer work this summer is scheduled in the Michigan-Idaho avenue area west of Wilson Park.

The work there is to be started along 27th street July 8-11, on Michigan avenue July 16 to July 24, Troy avenue, July 29, and Idaho avenue Aug. 2-12.

To carry out the contract as quickly as possible, S. M. Wilson & Co. is moving in equipment from other jobs.

The equipment will include three self-propelled hydraulic cranes, two 25-ton crawler cranes, two 50-ton crawler cranes, a 65-ton crawler crane;

three rubber-tired backhoes; one 2½-yard end-loader, one 3½-yard end-loader, one self-propelled hydraulic hammer, one truck mounted hydraulic boom concrete pump, one or two self-loading tarpaulins, two motor graders, one 250 CFM air compressor, two 600 CFM air compressors and 15 to 20 trucks.

On Johnson road, Illinois Power Co. is relocating a gas main on the north side of the roadway. A. H. Seebold under its \$203,692 motor fuel tax contract, plans to start sewer installation work this week between the drainage ditch and Wabash avenue.

Youth Program Job Applications Still Being Accepted

Applications still are being accepted for the Federal Youth Program in Granite City, with the youthful workers to be assigned to tasks to make a year-round project of the 171-Cities Chamber of Commerce clean-up-fix up campaign. The work program is scheduled to start next Monday.

Mayor Partney, who started the program here two years ago with six to eight young people, plans to keep it going with a larger force to provide summer and even all-year jobs for 50 local young people.

C. A. MacMillan, director of the Coordinated Youth Services, a United Fund Agency, is handling applications at the city's office, 1255 Niedringhaus avenue (across from Graham's Book store).

"We've received 50 applications so far, and they are being processed by the Neighborhood Youth Corps office in East St. Louis. The process is slow, so we're not expecting to have 50 on the job Monday, but in the matter of a few days, the full staff will be going."

MacMillan added that his office will accept applications throughout the summer.

Pay Is \$1.25 An Hour

Numerous projects are in the making for the corps of workers, who will be paid \$1.25 an hour by the federal government. The city has authorized expenditure of up to \$100 for small tools and equipment and for flowers, shrubbery and trees.

The Chamber of Commerce Clean Up committee, headed by Keith Tobey, and the Associated Retailers, headed by John Bloodworth, are seeking funds from the organizations' members to hire an adult supervisor.

In requesting city funds for the program, Mayor Partney outlined the work projects as including beautification of high-way entrances to the city with general clean up and planting of trees, flowers and shrubbery.

Under the cooperative program with the Chamber of Commerce and Retailers, the youthful crews will cut weeds and do general clean up work in the downtown business district and at the shopping center areas.

None of the youngsters are to do work normally done by city crews, but the added work is geared for the betterment of the community.

Other Typical Training

Several will be assigned to aid the city humane officer at the animal shelter building, others will be added to the public library staff and a crew will be assigned to work for the park district.

"The Neighborhood Youth Corps is structured to assist disadvantaged youth to reach their optimum employment potential," Mayor Partney pointed out. "This is attempted through testing, counseling, job conditioning, skill training, remedial education and rehabilitative services."

"An in-school program provides a work experience of up to 12 hours per week. Counselors offer guidance in vocational or further scholastic ambitions. The out-of-school program offers up to 32 hours per week of work-training."

NYC is a project of the Bureau of Work Training Programs under the Department of Labor and operates in Madison and St. Clair counties. Job placement is not limited for young men and women between the ages of 14 and 45 who are either unemployed, in need of paid work experience or to increase their employability.

"Through the program, we hope to keep the youth of our community busy and provide them a way to better themselves this summer," the mayor added.

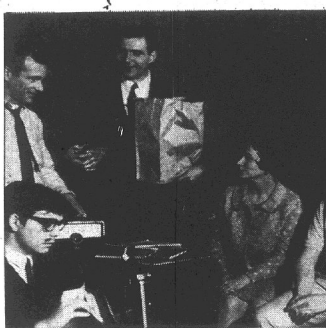

Heart Association Names Field Director

Thomas E. Daniels, executive director of the Illinois Heart Association, announced this week that Larry McConkey of Decatur has joined the association as a field director with offices at Edwardsville.

McConkey will be responsible for coordinating Heart Association activities in the counties of Madison, Clinton, Bond, Calhoun and Jersey.

He is a graduate of Illinois State University where he majored in education. For the past two years, McConkey has been an instructor in special education for the physically handicapped with the Decatur school system.

He is married to the former Miss Donna K. Phillips of Argenta and they are the parents of two.

PORTRAYING ROLES in the Masquer's presentation, "A Thousand Clowns," which runs tonight through Saturday, they are left to right—Wesley Loper (seated), R. Michael Odell, Charles Norris, Mrs. Beverly Scroggins and Paul Matthews.

Masquers 'Thousand Clowns' Opens Tonight at SIU-SW

"A Thousand Clowns," a three-act comedy written by Herb Gardner, will be presented by the Masquers, Inc., in the Communications Building Theatre SIU-SW tonight, Friday and Saturday.

The play concerns an unemployed TV writer, Murray Burne (R. Michael Odell) and his 12-year-old nephew, Nick (Paul Matthews) living in an old brownstone apartment in mid-town Manhattan.

Their world is invaded by two people from the Board of Welfare, Albert Amundson (Wesley Loper) and Dr. Sandra Markowitz (Beverly Scroggins), who are investigating the environment of the youngster, with his uncle.

During the ensuing investigation a number of hilarious situations arise and concludes with a happy ending.

Also included in the cast are Arnold Burns played by Charles Norris; Leo Herman by John Mofford; Miss Rogers Davis will direct the play and James Swannick will serve as the stage manager.

The Masquers, Inc., was formed in December 1959 by a group of people interested in the theatre and wanting to bring the theatre to the community through a variety of plays to interest the majority of the people.

They now have a membership of 45 people and are a member of the American National Theatre Academy, with two general meetings each year. Thirteen board of directors meet monthly with open meetings to the public, held in the club's rehearsal hall on Vandavia and Main street in Collinsville. Mrs. Mildred Hoelcher is president.

Proceeds from the shows are used to cover the expenses, rental of hall, rental, royalties and purchasing of equipment and the construction of sets.

Some of the plays presented by the Masquers include, Pajama Game, South Pacific, Carousel, Blythe Spirit, The Man

Who Came to Dinner, the Little Foxes, Teahouse of the Ostrich, The Fantasticks, The Rainmaker, Carnival, Brigadoon and Bus Stop.

The club, upon request, will perform songs from past musicals, to any local organizations for their meetings.

Tickets for the present show may be purchased from any Masquer member or at the door the night of the performance.

Camaro's 327 V8 is standard. That's because we have higher standards.

The standard V8 you get in Camaro is actually pretty understated. It's a variation of the base 327-cubic-inch V8 that goes into Corvette.

That doesn't put Camaro in the same league with America's only honest-to-goodness production sports car. But it gives you a quick idea of how Camaro's Vette-bred advantages set it apart from other cars in its field.

So whether you want a standard Camaro or a very special one, you'll find what you're looking for at your Chevrolet dealer's. Anything but an ordinary one.

4 Locations Announced

'Books for Vietnam' Project Starts Today

A three-day drive to collect books to send to servicemen in Vietnam is scheduled to start here today, under the auspices of the Quad-City Navy Mothers, Unit 880.
Mrs. Bette Mertz, general chairman of the project, said this week that pocket books and hard cover books, suitable for mailing to servicemen in Southeast Asia, may be deposited at any of four locations—W. T. Grant store, Nameoki Village shopping center; Schermer Bros. Market, 12th street and Madison avenue, Madison; Cochlite Inn, Poston and Nameoki roads; and the lobby of the YMCA.
The chairman explained that earlier today large containers inscribed with the slogan "Books for Vietnam" were placed at each of the four locations where they are to remain until late Saturday evening.
"We hope the entire community will support the Navy Mothers in this project," she said, adding that club members plan to send the books to Vietnam as soon as they are packed into boxes and wrapped for shipping.

Mrs. Mertz noted the organization previously has sent several hundred books to Vietnam for distribution at military and Naval hospitals, camps and other locations there. She said that western, mystery and science fiction stories appear to be special favorites of service personnel, adding, however, that no contribution of fiction or non-fiction books would be appreciated.
The project chairman pointed out that hard cover books, which are costly to mail overseas, may be held until the unit's annual "Book Fair and Bazaar" in September, when they will be sold and the proceeds turned over to other welfare programs, sponsored by the Navy Mothers for servicemen.
In addition to the annual book fair, Unit 880 also holds bake sales and rummage sales to raise funds for service-welfare projects, the chairman said.
Area residents having quantities of books who are uninterested in one of the four collection points, may call Mrs. Mertz at 872-4629 for pickup service, or deliver the books to her home at 3312 Terrace lane.

Bible School Program Tonight at St. John

A closing program for the vacation Bible school will take place this evening at 7 o'clock at St. John Lutheran Church, 3312 Terrace and Dale avenues. The theme was "Toll the Good News," prepared by the Concordia Publishing House.
The ten Bible stories studied will be flashed on the screen by means of a colored film strip and children will recall the stories for the benefit of the parents and friends present. Each class will then have a demonstration period.
Teachers will present children with certificates for attendance and accepted classwork, and a tour will follow to view the handicraft exhibit in the downstairs fellowship hall. The pastor, Rev. Samuel Boda, will present teachers and assistants with certificates of appreciation on behalf of the congregation.
Evening school totaled 150, including the teaching staff. The teachers for the two-week school were Mrs. Helyn Potter, Mrs. Denise Schmitz, Mrs. Olive Settemi, Mrs. Diane Gebhardt, Mrs. Lucy Link, Mrs. Betty Lyons, Mrs. Bernice Dahl, Mrs. Rosemary Dujka, Mrs. Mary Ann Kaminiski, Mrs. Phyllis Ann Boda, Miss Heather Potter, Miss Barbara Azari, Miss Susan Greco, Miss Peggy Schmitz and Miss Barbara Jensen.

Withholding Deposits

Required by June 19

Employers liable for the withholding of income taxes and Social Security taxes in excess of \$2500 for any month of the preceding calendar quarter are required to make semi-monthly deposits of withholding and Social Security taxes. The first semi-monthly payment for central and southern Illinois must be deposited on or before June 19.
Jay G. Philpott, district director of Internal Revenue for central and southern Illinois, reports that all employers should use Federal Tax Deposit Form 90 in making the deposits in a Federal Reserve Bank or an authorized commercial bank. "Employer's Tax Guide," (Publication No. 15), commonly called Circular E, furnishes detailed information on the subject and may be obtained by sending a postcard to: District Director, Internal Revenue Service, Springfield, Ill. 62704.

Kiwanis Plan Boat Race and Fish Fry

Michael Toudas, president of the Granite City Kiwanis Club, presided at the dinner meeting Monday at the Rose Bowl to further plans for future events.
Joining the local club were four Glen Carbon Kiwanis—Harold Helfer, a past Lieutenant Governor; John Pyles, Sieve Stimac and Roy Green. The president introduced a guest for the evening, George Grove.
During the business meeting plans were discussed for the forthcoming annual boat races on July 14 on the Mississippi River near the Hartford canal; for a ladies night at the St. Louis Municipal Opera in the next few weeks, and a fish fry to be held in late September.
About 60 people attended a break fry at Herb Schanott's club house near Grafton on Sunday as one of the club's social events.

Assisting the teachers, were Mrs. Sandra Baseden, Miss Donna Ruth Holman, Miss Janet Willings, Miss Linda McGowan, Miss Margie Maynard and Mrs. Esther Henke. Another assistant was Tommy Greco.
The supervising staff consisted of Mrs. Esther Gilmore, general secretary; Mrs. Amelia Eckert, refreshments; Miss Phyllis Ann Boda and Miss Barbara Henke, organists; and Rev. Boda, superintendent. The Bible school is under the supervision of the congregation's Board of Christian Education made up of Michael Schmitz, Dominic Greco, Robert Springer, Harold Gebhardt, and consultants Raymond T. Jones, Don Deterding and Gene Potter.
Women of the church volunteered their services in furnishing food and serving refreshments during the daily recesses. They worked through the Woman's Service Guild which annually furnishes most of the refreshments.
Following the program, this evening, there will be an ice cream social on the church lawn. It will be given by the Young People's Society of the congregation.
The Bible school will close officially Friday. Sessions will begin at 9:15 a.m. and close at 11:30.

Depot Savings Bond Sales Top Old Record

A person-to-person U. S. Savings Bond recruitment campaign at the Granite City Army Depot, has resulted in a substantial increase in the number of Depot employees agreeing to participate in the program, according to a report this week by Mrs. Pauline Weir, Depot Savings Bond officer and chief of the installation's audit section.

A ten-day concerted effort by volunteer personnel enrolled 75 new subscribers into the Series E Bond program and 15 new purchasers of Freedom Shares. Mrs. Weir explained that based upon the 75 new subscribers alone, participation in the Savings Bond program jumped from 99% to 83%. She credited the increase primarily to personal contact of all Depot employees by the drive's volunteer workers.

The 1968 Savings Bond campaign was initiated May 27 by Miss Linda Whistler, Depot Queen, and members of her Court of Honor, who toured the military facility aboard a MOPAR amphibious vehicle to publicize the drive.

Mrs. Weir has served as Depot Savings Bond officer for the past 25 years.

Police said they were called to the tavern by William Huffman, operator of the tavern, who said the two men had attacked him and had struck Mrs. Dolores Byers. Births in May increased to 42 the total number during the five months of this year, compared to 387 for the same period in 1967. Last month's 32 deaths brought the total for the year so far to 187, down 34 from the 221 for the same period a year ago.

Settle Tax Objection

City attorney Hartman reported that a settlement has been reached with the United Electric Co. in which the city will receive \$58,000 tied up by objections to 1965 taxes collected last year. The objections had been based on a challenge to the legality of the general and local tax rate levied by the city of Venice for 1966.

Plans also were discussed for employing a number of boys through the street department and employ them in cutting weeds, cleanup work and general street department activity.

Mayor Lee announced that he has been notified by Granite City officials that the Granite City landfill no longer will be able to accept trash and garbage collected in Venice. He suggested the city begin immediately to negotiate for other disposal facilities.

Schools Promote Jones, Dumont, Sikora, 5 Others

Eight administrative changes recommended by Supr. Bob J. Jones were approved by the Granite City school board Monday night including designation of Raymond Tom Jones to replace Earl Lee when the latter retires.

Jones, principal of Coolidge junior high school for the past year, previously was assistant principal of Prather junior high school.

He will be assistant to the personnel administrator in 1968-69. When Lee retires June 30, 1969, Jones is to advance to the position of administrative assistant in charge of personnel. Jones resided at 3116 Ash street.

New Coolidge junior high principal will be James Dumont, 2588 Lynch avenue, an assistant principal at Coolidge for the past three years and an employee of the city district for ten years.

It was previously announced that Charles Weiss will advance from principal at Coolidge to principal of Grigsby junior high school when Grigsby is opened this fall. New Central principal will be Mike Sikora, 2315 O'Hare avenue, currently assistant principal at Prather junior high and a former Coolidge assistant principal. He has been in the system for seven years.

Emerson grade school principal will be Alfred Wilson of Belleville, who plans to move to Granite City in the near future. He has taught here for ten years and is on the Lake grade school faculty.

The Emerson vacancy was created by previous designation of Dale Kraus as assistant to the superintendent.

Frank Kraus, who has served as assistant to the superintendent at Coolidge, will be Richard Yates, Rural Route Two, who has been director of athletics. Yates was chosen this spring to be an assistant principal but the specific assignment was not made until Monday night.

The existing Weiss at Grigsby will be Kenneth E. Spalding, 2000 Fifth avenue, who has been a social studies teacher at Granite City high school for five years.

Assisting Principal Walter Klein at Prather junior high will be Warren Collins, Route Four, Edwardsville, a GCHS history teacher, who has taught for ten years, including four years in Granite City.

With Joseph Fedor, the new director of athletics and physical education for junior high and high school boys, William Schmitt, a GCHS physical education teacher and varsity wrestling coach, was named Monday to assist Fedor by taking the new position of department head for GCHS boys' physical education. Schmitt will be believed of two teaching classes.

Administrative Changes Planned For SIU Campuses

Recommendations for an administrative executive officer—chancellor—on each major campus will go to the Southern Illinois University board of trustees.

University President Delyte W. Morris today said he also would recommend that two vice-presidential positions be discontinued. The University now has four vice-presidents.

Calling for the top administrative shift at this time, Morris said other changes in University organization should be made when they would cause the least disruption of established routines. He named a committee to recommend procedures.

Vice-presidential positions to be discontinued are those of the Vice-President for Academic Affairs and Vice-President for Business Affairs. Title of a third vice-president would be changed to Vice-President for Area Services. No change is contemplated in the title of Vice-President for Planning and Review.

The chancellors initially would have charge of undergraduate academic affairs, student affairs and certain business affairs operations on each campus.

President Morris said studies to improve the governance of Southern Illinois University have been under way virtually since the last change was made, in 1964. Recommendations were sought from faculty and staff members individually and through deliberations of the Faculty Council. As a result of these, Morris said, it became apparent that certain changes should be made soon, while others would benefit from consideration of the best timing.

An eight-man committee will start immediate consideration of additional changes in University organization. Members are Gordon Bliss, I. Clark Davis, Paul Isbell, Charles Lange, Willis Malone, Clarence Stephens and Lawrence Talana. President Morris will serve as chairman.

The names of Bliss, Lange, Stephens, and Talana were submitted by the Graduate and Faculty Councils. Davis, Isbell and Malone were recommended by the respective vice presidents.

The next meeting of the University board of trustees is scheduled for June 21.
